Parkway Church's goal is to empower the community in which it operates. In addition to offering spiritual and social guidance, we offer resources and activities which help ease our patrons' lives. We are happy to have Early Bird Development Center as an extension of our Family Services.

The Church's goal of improving overall community conditions is further advanced by providing safe, clean, organized and guided resources.

Parkway Church will work with the Early Bird Development Center (EBDC) to develop a curriculum that meets our religious goals.

Parkway Church's Pastor will provide direct supervision to the Director of Early Bird Dev Center. In addition, the Director of EBDC will be included in Parkway Church's (weekly/monthly/quarterly) Board Meetings. In these board meetings, matters of the Church will be discussed and resources shared to create and meet Church goals.

To help EBDC perform our mutual goals, The Church will provide background checked and screened volunteers to teach Bible lessons and instructions on a regular basis. The Church will help maintain community health by providing deep cleaning and sanitation to EBDC.

The Church will work with EBDC to develop curriculums that meet our religious goals. The Church will provide Spiritual support to students and their families as necessary. The Church will invite the parents and family members of the EBDC to join the Church's available events and activities.

Parkway Church will work closely with, and provide oversight to Early Bird Development Center to collectively benefit our community. The Church aims to continue its goals of being community focuses and impacting those around in positive ways.

Warm regards,
Elias Rahman MSW
